Experience

FadFocus

September 2025 – November 2025

Flutter Developer Intern

Remote

- Worked on an Offer Management System contributing to frontend (**Next.js**), backend (**PHP**), and mobile app (**Flutter**).
- Implemented interactive UI components and integrated **REST APIs** to ensure smooth data communication and optimized workflows.
- Collaborated in debugging, testing, and deployment to ensure feature stability and seamless multi-platform integration, successfully reducing screen load times by 20%.

Projects

HomeSphere | *Flutter, Dart, Spring Boot, REST API, MySQL* | **GitHub**

- Collaborated to develop a real estate listing platform featuring property listing, user authentication, and search filters.
- Integrated RESTful APIs connecting the Flutter frontend with a Spring Boot backend for seamless data handling.
- Contributed to complete UI design and performed comprehensive API testing using Postman.

CORPconnect | *Flutter, Spring Boot, MySQL, JWT* | **GitHub**

- Built a location-aware employee assistance platform enabling company employees to discover colleagues across cities, update locations, and request support through a structured help-request workflow.
- Developed a full-stack solution with Flutter and Spring Boot, implementing JWT-based role authentication, employee management, city-based search, REST APIs, JPA entity relationships, and MySQL persistence.

Achievements

- Achieved **Global Rank 365** at CodeChef Starters 178 (Division 3) and hold a **3-Star** badge.
- Secured a **Global Rank of 1721** in LeetCode Weekly Contest 509, achieving a peak contest rating of **1860** and hold **Knight** badge on LeetCode.
- Solved over **850+ questions on LeetCode** and **160+ on GeeksforGeeks**, demonstrating consistent problem-solving skills.

Technical Skills

- **Languages:** Java, Python, Dart, SQL
- **Core CS:** Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Discrete Mathematics, Probability & Statistics
- **Frameworks & Libraries:** Flutter, Spring Boot
- **Tools & Technologies:** Git, GitHub, Postman, Android Studio, IntelliJ IDEA, VS Code, Cursor, Copilot, Claude, ChatGPT
